

CE+T Power to Unveil Revolutionary Power Conversion System at EES Europe 2025

WANDRE, 14 APRIL 2025

CE+T Power, a global leader in innovative energy solutions, is set to make a major impact at EES Europe 2025 in Munich from May 7 to 9 (Booth C2.139). This year's event will mark a pivotal moment in CE+T Power's journey as the company unveils a game-changing power conversion system that reflects a bold rethinking of how energy should be managed, converted, and delivered.

CE+T Power will launch this groundbreaking new solution on May 8 at 4:30 PM directly on their booth (C2.139). Attendees will get an exclusive first look at a solution designed from the ground up to challenge industry standards and meet the complex energy needs of tomorrow.

"This new system is not just another product launch, it is a technological leap" says Benoît Bidaine, PhD, CTO of CE+T Group, the umbrella organization of which CE+T Power. "It represents years of research and development. We believe it has the potential to fundamentally reshape how power conversion is approached across applications. As the next chapter to our mission, it reflects our vision for a smarter, more efficient energy ecosystem. We are proud of what we have achieved and excited to share it with the industry."

Driven by its core belief in reimagining power conversion and decades of experience alongside a proven track record of firsts in the field, CE+T Power invites professionals, partners, and media to join this unveiling and discover how its new system is reshaping the future of energy.

About CE+T Power

Founded in 1934, **CE+T Power** is a trusted **power conversion system provider** driven by innovation. With 90 years of experience, they design and deliver cutting-edge energy conversion systems that ensure reliable, efficient, and sustainable power delivery. Headquartered in Wandre, Belgium, the company has grown into a global player with over 200 employees and a turnover of more than €46 million. CE+T Power earned global recognition by winning Google's **Little Box Challenge** in 2016 and has been named one of Deloitte's **Best Managed Companies** for seven consecutive years. Today, CE+T continues to innovate with one mission in mind: enabling the energy transition through smarter power solutions.

Join us at EES Europe 2025 and discover how CE+T Power is reimagining power conversion. The future begins here!
